Here at Austin Urban Vet Center, every anesthetic procedure will include pre-operative blood work, peri-operative IV fluids and catheter, and state of the art anesthetic monitoring to ensure the utmost safety of your pet during all surgical and dental procedures.

I have read and understood the above statement. _____ (**please initial**)

Depending on the degree of dental disease present, extractions may be necessary during your pet’s dental prophylaxis. These extractions range in price from \$30.00 for simple extractions to \$150.00 for surgical extractions. If the extent of disease does not call for extractions special medications may need to be applied directly to the teeth during the prophylaxis. The cost of this medication is \$75.00.

I give Austin Urban Vet Center permission to extract necessary teeth or apply medication directly to the teeth.
_____ (**please initial**)
